

**FOR IMMEDIATE RELEASE:**

## **STATKING Provides Clinical Services Support For Lymphoseek NDA**

Cincinnati, OH – August 20, 2011 – STATKING Clinical Services, a provider of clinical trials services, worked closely with Neoprobe Corporation on its recent New Drug Application (NDA) submission to FDA for Lymphoseek®, a proprietary radioactive diagnostic tracing agent for use in connection with gamma detection devices in a surgical procedure known as Intraoperative Lymphatic Mapping. STATKING provided the following services for this development program:

- Negotiated with Neoprobe and FDA personnel on the statistical strategy during the program
- Planned and implemented all databases and data management plans for the individual studies and the combined safety and efficacy analyses
- Provided clinical study monitoring support

In addition, STATKING's statistical programming staff generated 523 data analysis tables based on over 25,000 lines of SAS code that were sent to FDA as part of the Lymphoseek submission. Additionally, STATKING data management staff created and queried databases containing data from more than 11,000 electronic case report forms from more than 500 subjects enrolled in the seven pivotal trials used in the submission. STATKING project managers supervised the creation and archiving of nearly 300 internal and external process documents and conducted more than 75 meetings between Neoprobe and the STATKING staff to move the project forward. STATKING clinical study monitors also conducted site monitoring visits at numerous clinical study sites.

### **About STATKING Clinical Services**

STATKING Clinical Services provides clinical trial services (biostatistics, clinical data management, clinical study monitoring, medical writing, safety reporting, project management and clinical trial management) for clinical trials for the regulatory approval of novel drug and medical device products. The company is headquartered in Fairfield, OH. The company has provided support on 13 NDAs and 13 PMAs over the past two decades of service to the pharmaceutical and medical device industries. For more information, visit [www.statkingclinical.com](http://www.statkingclinical.com).

### **About Neoprobe Corporation**

Neoprobe is a biomedical company focused on development of precision diagnostics that enhance patient care and improve patient benefit. Neoprobe is actively developing and commercializing targeted agents aimed at the identification of occult (undetected) disease. The Company's two lead radiopharmaceutical agent platforms – Lymphoseek® and RIGScan™ For more information, please visit [www.neoprobe.com](http://www.neoprobe.com).
